DETAILED ACTION

Claim Objections

Claim 20 is objected to because of the following informalities:

“said the first volume” in line 11 should be --said first volume—

Appropriate correction is required.

Claim 23 is objected to because of the following informalities: “the process of claim 21” should be --the process of claim 20--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 20, 23, and 25-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 20 recites the limitation "the silane" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 20 recites the limitation "said first chemical silane" in lines 11 and 12. There is insufficient antecedent basis for this limitation in the claim. (It should just be --said first volume of liquid silane—in both instances and below)

Claim 20 recites the limitation "said first chemical" in line 13. There is insufficient antecedent basis for this limitation in the claim.

Claims 33-37 and 39 recites the limitation "said first liquid silane". There is insufficient antecedent basis for this limitation in the claim.

Claims 23, 25-32 and .38 are rejected as being dependant upon a rejected base claim.

Allowable Subject Matter

Claims 20, 23, and 25-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The applicants' remarks regarding the amendments and the prior art were found to be convincing. It is noted to the applicant that if amendments are received after final only changing the antecedent basis and formal matters in the claims that the amendments will be entered after final if they place the application in condition for allowance.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1792

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
